Real Comedy Finally Comes to the iPhone Just in Time for the Holidays

Two world-renowned comedians from Detroit have joined forces to create the first iPhone app to provide users with professional humor, as well as a variety of special effects to lighten the mood and turn you into an instant comedian.

Las Vegas, Nevada (PRWEB) 1, December, 2009 – It's the holiday season. It's time for family parties, corporate holiday events and meeting with the in-laws. Although this is a joyous time of the year naturally, it can be a little daunting going to holiday parties and socializing all evening with people you hardly know. Everyone wants to make a good impression and be remembered as that outgoing and funny guy or gal.

Thanks to two professional comedians from the Detroit area, you now have the opportunity to be just that individual and the life of the party with the new Best Jokes Ever app for the iPhone and iPod Touch.

Jeff Hobson and Michael Mode, two world-renowned comedians, have teamed up with award-winning Fingerfood Studio of Vancouver, Canada, to produce the first every iPhone app that brings professional jokes and humor to users worldwide.

The Best Jokes Ever app is chock-full of more than 1,500 professional, audience-tested jokes. In addition, the app is unlike anything else users will find available for use with

the iPhone. With a searchable database, a customizable interface, filtered content and unique sound effects, the Best Joked Ever app is a true comedy club in your pocket.

Moreover, it allows anyone to become a comedian, regardless of whether or not you think you can tell a joke. On a recent flight, the duo showed the app to a flight attendant, who promptly took the iPhone and began telling jokes to the other passengers – she became an instant comedian!

“There was nothing available to the public that made us laugh, so we decided to put our best collections together in what, we believe, are the best jokes in the world”, says Hobson. Mode adds, “Not a joke-teller? We’ve even included years of comedy experience in our joke tips section to help anybody get laughs like the pros.”

The Best Jokes Ever app does provide users with some rather unique features. As mentioned, the app offers professional joke tips - real advice from professional comedians. You will also find that the app is loaded with all types of jokes, from clean humor to some decidedly adult content. If you’re worried about the kids reading the jokes, simply use the built-in password protection feature and your worries are solved.

The Best Jokes Ever app was released the day before Thanksgiving and has already become a hit in more than 22 countries around the world including remote areas such as Zimbabwe. Of course, part of that is because the app requires only a onetime fee of \$1.99, with no membership fees and no subscription costs. You’ll get more than 1,500 of the best yuks for less than two bucks.

To find out more about the Best Jokes Ever app and how it can liven up your life with professional jokes right on your iPhone, visit <http://www.FunMastersProducts.com>.

About FunMasters: FunMasters is made up of Jeff Hobson and Michael Mode, two world-renowned comedians. Hobson is a Las Vegas headliner who also has performed for most of the world’s Fortune 500 companies. Michael Mode combines magic and humor in an act that has brought him to the notice of performers like David Copperfield, as well as being a teacher and corporate entertainer.
